SOFTWARE ENGINEER

A Motivated Computer Science Engineering student with a strong foundation in programming, web development, and problem-solving. Fluent in English and passionate about developing efficient, user-centred solutions. Skilled in front-end and back-end technologies with experience in building responsive web applications. Eager to contribute to impactful projects and continuously learning in dynamic environments.

EDUCATION

BSc in Computer Science Engineering

University of Pécs, Hungary | Expected Graduation: January 2026

- Relevant Coursework: Data Structures & Algorithms, Web Development, Object-Oriented Programming, Database Management Systems, Operating Systems, Computer Networks

---

TECHNICAL SKILLS

- **Programming Languages:** JavaScript (Proficient), Python (intermediate), Java (Basic)
- **Web Technologies:** HTML, CSS, React, Node.js
- **Database:** MSSQL, PostgreSQL
- **Tools:** Git (Proficient), Agile Development (Familiar), REST APIs
- **Other:** Graphic Design, UI/UX Design, OpenWeatherMap API

PROJECTS

Weather App (JavaScript)

- Created a responsive weather app using **OpenWeatherMap API** with real-time data, implementing features like **city-based search**, **light/dark mode toggle**, and **modern UI design** to enhance user engagement.

Portfolio Website (HTML, CSS, JavaScript)

- Designed and developed a personal portfolio website to showcase development skills and projects, with a responsive layout for both desktop and mobile devices.

Employee Wage Calculator (Java)

- Built a system to manage and calculate employee wages, overtime, and missed hours, using **object-oriented principles** and file input/output processing.

Blood Givers Register (C)

- Developed a **command-line program** for managing blood donor information, demonstrating proficiency in **data management** and **file handling**.

EXPERIENCE

Customer Care & Sales Representative (Remote)

Trucking42, Ukraine | Feb 2023 – July 2023

- Provided **technical support** for software solutions, improving client satisfaction by resolving issues and communicating product benefits effectively.
- Improved **communication skills** through team collaboration and product support.

Customer Service Specialist (Remote)

Alliance Health, USA | July 2021 – Jan 2022

- Assisted clients with over 100 technical inquiries, enhancing **attention to detail** and developing skills in debugging, problem-solving, and client interaction.
- Coordinated with health professionals to ensure high-quality service, building strong **organizational** and **teamwork** skills.

EXTRACURRICULARS & ACTIVITIES

- **Google Developer Club Member** at University of Pécs: Actively participated in coding challenges and hackathons, collaborating with peers to solve complex coding problems and explore new technologies.
